

Amendments to the Claims

1. (Currently Amended) A stable composition for rapid delivery by inhalation to the lungs, and subsequently to the bloodstream, the composition comprising a therapeutically effective amount of delta-9-tetrahydrocannabinol in a pharmaceutically-acceptable semiaqueous solvent comprising an alcohol, water and a glycol, in amounts sufficient
 - (i) to aerosolize the composition to a mean mass median aerodynamic diameter in the range of from about 1 up to about 10 μ M;
 - (ii) to enhance partitioning by producing a stable clear solution near the solubility point of the delta-9-tetrahydrocannabinol ~~[[,]]~~;
 - ~~[(iii)]~~ ~~wherein after the administration of a single dose of the stable composition, a T_{max} for delta-9-tetrahydrocannabinol is achieved between about 0.032 hour to about 0.041 hour;~~
 - ~~[(iv)]~~ ~~wherein after the administration of the single dose of the stable composition a T_{max} for 11-OH delta-9-tetrahydrocannabinol is achieved between about 0.115 hour to about 0.208 hour;~~
 - ~~[[v)]]~~ ~~[(iii)]~~ wherein the concentration of glycol is ~~less than~~ about 20% to about 65% of the composition solvent; and
 - ~~[[vi)]]~~ ~~[(iv)]~~ wherein the concentration of the alcohol ~~exceeds~~ is about 20% to about 70% of the composition solvent; and
 - ~~[(v)]~~ wherein composition is substantially free of a phospholipid.
2. (Currently Amended) ~~[[A]]~~ The composition ~~as defined in~~ of Claim 1 wherein said delta-9- tetrahydrocannabinol comprises from about 0.1 to about 200 mg/mL ~~of the stable composition.~~
3. (Currently amended) ~~[[A]]~~ The composition ~~as defined in~~ of Claim 2 wherein said delta-9- tetrahydrocannabinol comprises from 0.1 to 25 mg/mL ~~of the stable composition.~~
4. (Currently amended) ~~[[A]]~~ The composition ~~as defined in~~ of Claim 2 wherein said delta-9-tetrahydrocannabinol comprises 50 mg/mL ~~of the stable composition.~~
5. (Currently amended) ~~[[A]]~~ The composition ~~as defined in~~ of Claim 1 wherein said solvent

comprises ethanol, water and propylene glycol.

6. (Currently amended) ~~A composition as defined in Claim 5~~ The solvent of Claim 1 wherein the volumetric ratios of ~~ethanol : water : propylene glycol~~ the alcohol : water: glycol are selected from those in the range of from about 20-70 : 10-30 : 20-65, respectively, having a combined total of 100.
7. (Currently amended) ~~A composition as defined in~~ The solvent of Claim 5 wherein the volumetric ratios of ethanol : water : propylene glycol are selected from those in the range of from 20-70 : 10 : 20-65, respectively, having a combined total of 100.
8. (Currently amended) ~~A composition as defined in~~ The solvent of Claim 7 wherein the volumetric ratios of ethanol : water : propylene glycol are 35 : 10 : 55, respectively, having a combined total of 100.
9. (Currently amended) ~~[[A]] The composition as defined in claim~~ Claim 1 wherein the composition is in a sterile and/or preserved sealed unit-or-multi-unit dosage form comprising a container for rapid delivery by inhalation to the lungs and subsequently to the bloodstream.
10. (Currently amended) ~~[[A]] The composition as defined in claim~~ Claim 9 wherein said container comprises Type I Amber Glass with a liner.
